PROFESSIONAL SUMMARY

VR/MR Developer with 5+ years of experience building immersive applications in Unity and Unreal Engine for Meta Quest, HoloLens, and hand-tracking interfaces. Experienced in C#, animation systems, networking, and mixed-reality interaction design. Proven ability to lead development, deliver client demonstrations, and build production XR training simulations.

EXPERIENCE

VR/Web Developer

May 2022 - Mar 2026

Spandrel Interactive, Fredericton New Brunswick

- Lead developer for hand-tracking interaction systems in the All The Right Moves training module using Meta Quest 2 and the Meta XR SDK.
- Architected and implemented a custom animation playback system in Unity (C#) supporting choreography sequencing for the Dance XR mixed-reality platform.
- Contributed to the development of a markerless motion capture pipeline using Microsoft Azure Kinect sensors.
- Built mixed-reality passthrough medical training simulations for Meta Quest 3, integrating physical task trainers with virtual overlays.
- Provided technical support and mentoring to developers on debugging, XR integration, and Unity workflows.
- Collaborated with design, QA, and product teams to deliver XR applications within project deadlines.
- Presented working builds and technical demonstrations to clients and stakeholders.

Quality Control Inspector

Jun 2020 - Aug 2020

Strescon, Saint John New Brunswick

- Final inspection on complete and ongoing projects.
- Communicate with plant supervisor and masons to correct quality issues

General laborer (2-month contract)

Jan 2020 - Mar 2020

SNC Lavalin, Mississauga Ontario

- General vault work to support the ongoing project in unit 4 vault at Bruce Power.
- Installation of equipment into the pre-heaters to facilitate the cleaning of the tubes.
- Setup and tear down of vacuum drying equipment.
- Reading of procedures and maintaining FME logs.

PROJECTS

- **Dance XR — HoloLens 2, Unity, MRTK**
Mixed-reality choreography platform allowing users to visualize dance sequences through spatial animation playback.
- **Handwashing Training Module — Meta Quest 2, Unity, Unreal**
Hand-tracking VR training experience designed to teach proper sanitation procedures

- **ATRM ARJO 3000 bed trainer— Meta Quest 2, Unity, and Unreal**
VR training experience that replicates the real-world functionality of the ARJO 3000 medical bed. And trained the user to properly use the bed.
- **Inspire IV Task Trainer — Meta Quest 3, Unity**
IV task trainer that measured the angle of the needle going into the virtual arm.
- **Spectral Arm Task Trainer — Meta Quest 3, Unity**
Mixed-reality medical training system that anchors a virtual patient to a physical IV practice arm, using spatial alignment and voice interaction to simulate real patient responses.
- **UNB 360 Code White — Meta Quest 2,3, and 3s, Unity**
Interactive choose-your-own-adventure training video system.
- **UNB 360 Video Player — Meta Quest 2,3, and 3s, Unity**
VR video player capable of supporting multiple 360° video formats.

EDUCATION

New Brunswick Community College

Graduated Jun 2022

Saint John New Brunswick

- Information Technology - Programmer Analyst

Accomplishments

- Graduated with High Honours distinction.
- Engineered a warehouse inventory and ordering system in **C#**, complemented by a PHP web interface, as an independent development project.

New Brunswick Community College

Graduated Jun 2016

Moncton New Brunswick

- Welding Technology

Accomplishments

- Designed and drafted a pressure vessel as the capstone project.

TECHNICAL SKILLS

- **Programming:** C#, SQL, JavaScript, Java, PHP.
- **Game Development:** Unity, Unreal Engine, MetaXR SDK, OVR SDK, Mixed Reality Toolkit (MRTK)
- **Web Development:** HTML, CSS, MySQL.
- **Tools:** Git/Github, Perforce, Visual Studio, Visual Studio Code, Apache NetBeans.
- **Design & Planning:** Balsamiq, Visio, Draw.io, Microsoft Project.
- **Systems:** Microsoft Windows 11, Ubuntu, VMware
- **Hardware:** Build custom computers based on the clients use case, cable management, replacement of parts
- **XR Hardware Experience:** HoloLens 2, Meta Quest 2 / 3 / 3S, and Azure Kinect

ASSOCIATIONS

- Member of Interactive New Brunswick
